## A word from our Pro...

Lacey Fears  
Head Golf Professional

Members,

We are excited to offer corporate custom Titleist Golf Balls! When you choose Titleist, you're aligning your company's logo with the #1 ball in golf. The Titleist Pro V1 and Pro V1x golf balls have more players and more wins on the worldwide professional tours than all other competitive golf balls combined. The same commitment that Titleist makes to being the #1 ball on the worldwide professional tours, is mirrored in their dedication to customizing their golf balls with corporate logos. In addition to putting your company's logo on their golf balls, Titleist also has custom packaging options, such as dozens, half-dozens, sleeves, and other configurations which allows you to create a truly unique gift. Rounding out your company's golfing needs, Titleist also offers a full range of custom golf caps, gloves, bags, and travel gear. You're able to see their complete line of products via their website. I look forward to speaking with you soon. Until then, please call or email the pro shop for more information or if you have any questions about Titleist/Pinnacle custom products. As always, we will work with you to find a product, price, and program that fits your needs.

## In the Garden...

**DeGeorge Reeves**

Horticulturist

Hey Everybody!

May is here and the heat is about to be in full swing. With the summer being right around the corner, let's talk about sunflowers! Here are a few facts about the bright, dynamic, and iconic flower.

Did you know that Sunflowers can be other colors besides yellow? For example, the Chianti Hybrid's petals have deep, dark reds, which some classify as purple. This sunflower plant can grow to five feet and has no pollen, making it good for cutting.

Another fun fact about sunflowers is that they can grow into dwarf sizes. Dwarf sunflowers commonly grow in clusters and immerse themselves in small gardens and pots. These sunflowers are classified as dwarfs because they tend to grow no taller than 3 feet.

Lastly, all mature sunflowers face East because their internal clocks start slowing down until they finish the heliotropism (when sunflowers follow the sunlight) behavior completely! This also helps because it's known that sunflowers are more productively warmed when facing East.

As always, if you have any questions feel free to ask!

*Cooking Class*  
WITH CHEF JASON

Hello and Happy May, Members!

This month we gather to celebrate the amazing women in our lives we call Mom! This Mother's Day, we are hosting a fantastic Sunday brunch with all your favorite delicious foods. Bring your wife, mom, mother-in-law, grandmother, or any of the special folks in your life who may have played the role at being "Mom" at one time or another in your life.

Your grateful Chef,

Jason

Chef Jason's quick snowboarding trip to Park City Utah, where he ate some great food and met other like minded foodies!

Please help us congratulate Nicolas Gootee, our PM lead cook, for his outstanding role cooking at The Masters in Augusta 2023.

Nick was part of a kitchen team of 30 people and only one person per year shows the skill, dedication, and work performance to earn the Augusta white kitchen jacket for their amazing work ethic.

Great job, Nick!
